Incumbents Lose All Offices in Nameoki Upset

Opposition Group Wins All Six Offices in Clean Sweep Tuesday

(Chart on page 5)
An opposition ticket of candidates for Nameoki township offices, which never got into politics—captured all six contested town offices in an unusual upset in Tuesday's elections.

The winning candidates, who campaigned as "Truth and Action," defeated all six candidates of a slate that included four incumbent officeholders. It was the first total defeat for an organized incumbent ticket in the Quad-City area in many years.

Only one incumbent was a candidate on the victorious slate. He was Assessor Joseph Cohan, who split with incumbents in his office to run his own bid for re-election. Cohan, who headed the Truth and Action party, defeated Frank Mehele, a close associate of the present township administrator. Cohan was selected to run for assessor on the incumbent ticket.

Cochan Margin Small

Mehelic, who ran with other members of the administration group as the "Genuine Independent Party," was defeated by only 59 votes. He polled 142 votes to 1361 cast for Cohan.

Incumbent town officials defeated in the upset being included John Johnson, 410 North Drive, seeking re-election as town clerk; Gene C. Rotter, 1614 Minerva avenue, bidding for a third term as town auditor; Robert Strackhoff, 3204 Anderson drive, town auditor; and Herbert Polley, 4124 North drive, also seeking re-election as a town auditor. Also defeated on the incumbent slate was James Merchant, 1917 Third street, Madison, who ran with the incumbent group in place of Town Auditor William Schreiber, who did not seek re-election.

Incumbent collector, defeated by Louis E. Whitsell of No. 3 Westgate drive, a political newcomer who sought public office for the first time in Tuesday's election. Whitsell had 1520 votes in his bid; his seven precincts to win by 172 votes over Karlechik's tally of 1418.

Edgar A. Patrick, of 381 Pontoon road, won the tax collector's post over Rotter, with 1539 votes to 1489 cast for Rotter—a margin of only 50 votes.

New Town Auditors

Elected to the three auditor posts were Kenneth Geeson, 1515 Main street, with 1555 votes; Robert Beede Jr., 57 Cambridge lane, with 1609 votes, and Douglas Teeter, 233 Bern avenue, with 151 votes.

They won over Tom Polley, 1407 votes; Strackhoff, 1394 votes, and Merchant, 1365 votes.

Nameoki voters cast a total vote of slightly more than 3000.

County Hearing April 18

Propose Zoning Appeals Board of Seven Members

A proposal to increase membership of the Madison County Zoning Board of Appeals from five to seven persons will be voted on at a public hearing in Edwardsville April 18 because of the vastly increased work load in zoning administration, Jack Clifford, county zoning and building administrator reported today.

County officials will seek approval at the hearing of a plan to amend county zoning ordinance which presently sets the appeals board membership at five persons, Clifford said. The additional board member, if the proposal is approved, would be appointed by County Board Chairman Harold Landolt.

Clifford said the number of cases involving required zoning and building permits has increased substantially, but the length of time required for hearings has remained to the point that some hearings last several days instead of an hour or two as they did in the past.

Actions Require Quorum

As a result the five-man board is overtaxed at times, particularly since it takes four members to conduct a hearing.

Some quorum questions must be present at all discussions and all actions on petitions, he said. Under a seven-man board, five members would make up a five-member board.

Clifford said the proposal would be voted on at the next meeting of the zoning board sessions, Clifford noted.

At the same time, Clifford announced a series of actions by his department against violations of the zoning law and said a general cleanup drive against owners of junk-strewn property is expected to result in other actions later.

Clifford said he has filed a complaint with Magistrate Joseph Keller against Dean Johnston of Chouteau Slough township, charging that Johnston has been using his home at the Chouteau Slough as a residence.

Johnston's home is to be stored on his property, that he permitted junk autos to be stored at his house and that he illegally parked a mobile home at the Chouteau Slough.

Johnston has been charged with a condemnation notice for his residence.

EOC Center to Extend Hours on Trial Basis

For a two-week trial period, beginning next week, the Neighborhood Service Center, 145 Marion avenue, Madison, sponsored by the Madison County Economic Opportunity Commission, will be open from 8:30 a.m. to 9 p.m. on Tuesdays and Thursdays, according to Maurice S. Harris, county EOC director.

The neighborhood center will remain open at its usual hours, 8:30 a.m. to 5 p.m. on Mondays, Wednesdays and Fridays, the director said. At present, during the trial period, services extending hours on two days, the evening hours may be continued on an indefinite basis, Harris advised.

The EOC's second service center in Alton also will be operated on the two evenings, he added.

Census Bureau to Study Rate of Unemployment

A number of residents in this area will be visited by Bureau of the Census interviewers during the week of April 13 as part of the monthly survey of employment and unemployment conducted in cooperation with the Illinois Department of Labor, according to Director Theodore F. Olson of the bureau's regional office in Chicago.

Local households to be visited are part of a scientifically selected sample of all U.S. households. In addition to questions about employment, there will be some questions about work experience throughout 1968.

Additional supplementary questions will be asked in a small number of households to determine the two areas of employment and personal income levels in 1969 and the other to learn the number of Americans who have moved since a similar survey was conducted in the spring of 1968.

Information about individual households is kept confidential by law. Results of Bureau surveys are published only as statistical totals.

Rutledge polled majorities in Precincts Five and Six of Ward Two, while Bartoiski carried Precincts Seven and Eight of Ward Three. In Precinct Six Rutledge polled 247 to 189 for Bartoiski and in Precinct Six won by 82 votes with 243 to 161 for Bartoiski.

Bartoiski's lead in Precinct Seven was 275 to 242 for Rutledge, and in Precinct Eight 140 to 127.

Incumbent Alderman R. V. Poulos, opposed for re-election in Ward Three by Albert Ward Jr., 1215 19th Street, one of the four precincts in that ward, and appeared to be on the losing end until returns of Precinct Nine were reported.

Poulos won by 174, 129 to 143 for 200 to 180 in Precincts Ten, Eleven and 17, respectively. But in Precinct Nine Poulos jumped well into the lead by a vote of 376 to 99 for Ward—a margin of 277 in that single precinct.

"Figures released today," he commented, "show that over 17,000 taxpayers in the Granite City polling district have used the wrong table or rate schedule in computing their 1968 federal income tax. Not only have many taxpayers who overpaid their income tax as a result." So far this year, 325,000 taxpayers have received refunds totalling more than \$69 million.

Outdated complete or erroneous Social Security numbers account for nearly 3600 errors. Eleven hundred taxpayers failed to sign their returns.

Poulos also cautioned taxpayers to double-check their return before mailing it to the Service and requesting W-2s. He emphasized the use of the pre-addressed label or tax form and the correct tax table for computation of income and tax surcharge.

In Precinct 13, Ward Four, incumbent alderman of Ward Five, also lost easily over two opponents, John Basarich and Vasili Milutin. Basarich also lost only one of the five precincts that he ran in. His opponent, Basarich won in Precincts 19, 20, 22 and 23, but lost Precinct 21 to Milutin.

In Precinct 19, Basarich polled 204 to 68 for Milutin; in Precinct 20, polled 68 votes to 22 for Martinez and 16 for Milutin.

The final unofficial tally of Ward Five gave Basarich 889; Martinez 568 and Milutin 184.

As a result, two new aldermen will serve in Ward Five for the next two years. Redistricting placed Alderman Charles Moerlein of Ward One in the Fifth Ward, and Basarich was elected to represent Ward Five.

Parney's re-election Tuesday clinched the most heated city election campaigns in many years. Both Parney and Boyd had lined up solidly behind Boyd in the majority election, and because of this, Parney's victory in the Tuesday balloting was a foregone conclusion.

Revenue Service Eyes Deadline, Cites Errors

"Use the preaddressed envelope received with your tax forms when you mail your 1968 tax return," Jay G. Philpot, district director for central and southern Illinois, explained today.

"All envelopes in the Form 1040 tax packages are preaddressed to the Internal Revenue Service at Kansas City, Mo., so all you have to do is insert your completed Form 1040 in the envelope and mail before midnight, April 15."

Philpot also said, "If you receive a copy of Form 1040 (card form) you will find that the envelope address is not complete. When you mail your return, complete the address by inserting Kansas City, Mo., 64170 on the dotted line."

SIU-SW Prof Publishes Book on Drug Dangers

Tolerant human bodies and rock-bottom prices have combined to offer "speed" or amphetamine drug users one of the most easily afforded death planes on the market, according to a Southern Illinois University-Southwestern campus professor.

J. Robert Russo, associate professor in the Delinquency Study and Youth Development Project at SIU-SW, highlighted these findings in his recently published book entitled "Amphetamine Abuse."

Young people seeking this "chemical adjustment to life" are encountering a drug "potentially as dangerous as heroin," according to Russo.

The easily-afforded death plan alluded to in the book is caused by the availability of the drug, cheap prices and the fact that

the body rapidly builds up a tolerance to the drug.

The result, according to Russo, is that it requires greater amounts of the drug to attain the same degree of intoxication. "Therefore, the body can ingest an amount of 'speed' in one month that would normally be taken in one day," he stated.

The greatest danger to high school and college students, Russo believes, is that they fail to realize that while the body becomes tolerant to the drug, it is also accumulating greater amounts of toxins in the liver, heart, blood vessels and nervous system.

He also cautions that the use of this drug can lead to "addiction from experts on the uses, misuse, and recommendations of the publication."

Cougar Nine Preparing To Resume Competition

The SIU-SW baseball team will help the University of Missouri at St. Louis diamond squad open its first season of competition in the sport Saturday at Forestwood Park in Grafton, Game time is 1 p.m.

Coach Roy E. Lee's Cougars, who split a doubleheader with Winona State College of Minnesota last week to make their regular season record 1-1, should be rated favorites to hand the Rivermen of Coach Arnold Copeland a setback in the St. Louis team's debut.

SIU-SW, following a spring vacation trip south to Florida in which the Cougars won four, lost four and tied the New York Mets' rookies, has nearly jelled its lineup.

Infielders who appear to have their positions nailed down are Mike Sauer of Alton (Roxana high) at first base, Mike Fornaszewski of Roxana at third and John Belk of Jennings, Mo., at shortstop.

The Cougar outfield appeared especially strong during the spring series with left田erman being—Grafton City's Carl Benson and Alton's Dan Weaver. However, two freshmen, Collinville's Jerry Pitcher and Valmyer's Ron McMillen, looked impressive defensively. At second base it appears to be a battle between left田erman Alan Weber of Edwardsville and freshman Jack Forrestal. After two regular games, Weber is leading Cougar batters with a .300 mark.

Thompson, Raines Star
Behind the plate for Coach Lee, the major concern of many should go to team captain Bob Reichert of Belleville. With three other standout catchers on the squad in Edwardsville's Mike Allard, Grafton City's Wissi Bunn and Warden's John Oltman, he won't be able to relax a moment. Reichert paced all SIU-SW batters on the southern trip with a .400 batting average.

Five of the staff's six pitchers came out of the trip to Florida with earned run averages of less than two. Granite City's Bruce Thompson had 1.2, Kirkwood's Rick Whibley and Steve Malone of Marion, Ill., 1.6.

But most promising of all was the sensational hurling of Granite City's Don Raines, who worked eleven innings and allowed only one hit and no runs.

Who speaks softly and carries a big kick?

We do.

"If that isn't running, I'll buy it." That's what a man on the dock said as one of our new Mercurys moved by. It was and he did. Not surprising—because quiet is engineered into our '69 Mercurys all the way from the mighty 125 to the feisty 4 hp.

Mercury's full system of silencing includes small-bore, short-stroke engine design, improved Donaldson air cleaner, internal reed valves, rubber-mounted aluminum wraparound cowling with sound-absorbing liner, sound-isolating support frame, sound-sealed control and fuel tanks, and a Prop exhaust that buries sound and fumes underwater. All this makes our '69 Mercurys the quietest outboards you can buy.

Come in and listen. Then you talk... and we'll listen. Chances are we can get together on your new Mercury. Quietly.

Chouteau Township Officials Re-elected

Portell Charges Improper Method In Rich Complaint

GC Town Electors Increase Hagnauer, Barton Salaries

Effective Next Year

Schooley explained to the electors he had filed suit in the case of Assessor James Barton, the increase will not become effective until Jan. 1, 1970. Under state law the assessor's new salary does not start until the first day of the year following election, and Schooley explained that salary increases can become effective only with the beginning of a new term of office.

Term of all elected township officials begin within 20 days after election.

William Brandt was elected moderator for Tuesday night's town meeting by acclamation. The electors also approved the township by-laws which were proposed by the electors. They accepted a report by Township Supervisor Nelson Hagnauer listing expenses of \$99,702 out of the town fund and expenses of \$125,964 out of the general assistance fund during the 1968-69 fiscal year which ended last month.

Hugh P. Dix, 79, Former Resident, Dies

income in the new budget is \$300 per pupil support level, an increase of \$100 for public school aid which would be calculated on the basis of average daily enrollment, instead of average daily attendance. Per pupil support for high schools would be 25% greater than for elementary schools, compared with the present 15% increment for only some high school students.

He also proposed that local qualifying tax rates which determine whether a school district is eligible for state aid, be raised slightly.

The three states, he pointed out, give less state aid per pupil to elementary and high schools than does Illinois.

The governor also asked for direct aid to cities and local governments in the amount of \$135 millions—one-eighth of the projected income tax revenue to help them with pressing needs for which they lack revenue.

Other major points of the new record budget include:

Aid totaling \$32 million to students in private elementary and high schools, including parochial schools. Failure to provide such aid, the governor noted, may lead to widespread closing of schools where pupils would then have to attend public schools.

Grants of \$14 million to private Illinois colleges to help them achieve higher standards of quality.

Man Pleads Innocent To Battery, Defacing

Lawrence Ray Butts, 29, of 1729 State Street, was charged with battery on city property at 10 a.m. Tuesday while his auto was lodged in jail following his arrest the previous night on an aggravated battery charge.

He pleaded innocent to both charges and was able to meet a \$500 bond on the battery count and a \$25 cash bail on the other charge and was transferred to the Madison County Jail at Edwardsville.

Annual African Violet Show Set for April 12-13

The annual African violet spring show of the Illinois African Violet Society will be held at the Lewis & Clark Restaurant, East Alton.

It will take place April 12-13 from 9 a.m. to 4 p.m. This is the 13th annual show and includes an artisitic division for arrangements and artistic plantings.

Local garden clubs have been invited to participate.

nois can compete more effectively for skilled personnel.

The budget for the 1970 proposed to increase \$897 million for education, of which \$300 million is for the common school fund, and \$21.2 million for additional vocational educational programs.

An increase of \$407 million is proposed for highways, but Oglevie noted that virtually all of this is for federally-assisted grants. He said he will have a message later this month on a message board to let the public know what the increase is to support improvements in the severely deteriorated state highway system.

Rev. S. F. Peters, 55, Dies; Ill Six Months

Rev. Sylvester F. Peters, 55, of 4881 Warnock avenue, a traveling Evangelist in the Independent Assemblies of God Churches, died at 1:30 a.m. Wednesday at his home.

Peters had been ill for the past six months, he had been hospitalized twice, and a summons was issued for a hearing date for last Friday.

The summons was issued by the clerk of the county, and a hearing date was set for April 12.

Peters had been hospitalized again for the past four years.

The action added \$100 to the town fund, fixed at \$102,330 after Tuesday night's amendment.

The town fund set at \$102,330 and the Municipal Retirement fund totaling \$10,500.

Before adopting the tax levy

which was presented by Town

Attorney William Schooley,

the electors gave final approval to the appropriation and budget figures.

Supervisor Raised \$1500

The supervisor's salary from \$7,000 to \$7,648-a-month, an increase of \$640 a year (\$334-a-month), and increased the supervisor's salary from \$450 to \$500, an increase of \$50-a-month, or an increase of \$1,500 (\$125-a-month).

In a result, Portell said his office was flooded with requests for information from news media which had received no information on the tax levies.

The newly approved budget and appropriation of \$243,575 is \$51,205 higher than the 1968-69 budget of \$192,372, while the supervisor's salary is \$500 (\$375-a-month) or an increase of \$1,500 (\$125-a-month).

Portell said he delivered a personal petition to the electors to quash the summons and have an answer or defense, and the complaint was not officially filed with the clerk's office until last Thursday.

Portell said state statutes require that when complaints are issued by a magistrate, under ordinary circumstances they are to be forwarded to the clerk's office where a summons will be prepared and a hearing date set, in accordance with the laws.

As a result, Portell said his office was flooded with requests for information from news media which had received no information on the tax levies.

The action added \$100 to the town fund, fixed at \$102,330 after Tuesday night's amendment.

The town fund set at \$102,330 and the Municipal Retirement fund totaling \$10,500.

\$4 Judgment Awarded

A small claims court here has awarded a judgment of \$64 plus costs of \$5.50 for Theodore

Pritchett, who sued as a subscriber of a suit coming before a general day in his case against the city of Granite City. He claimed the amount as back salary which the city had refused to pay.

The Municipal Retirement Fund appropriation and tax levy last year was \$3500, or \$3000 less than that adopted this year.

After amending the budget, the salary increases to the new budget was presented by Ford Johnson, an outgoing member of the city council and a town board member.

Local Cats Win Top Honors at State Show

Cats exhibited by Mrs. David Taylor of the Willow Walk Cattery in Mitchell and Mrs. Jenny Pulliam, also of Mitchell, captured championship honors this week in the second annual Royal Merit Quadruple Championship Cat Show held at Deatur III.

A red Persian female—"Red-Lotus," shown for the first time, was named champion and "Best of Color in Opposite Sex." In four shows, a black Persian and a white Persian female—"Champion" and "Championette," both owned by Mrs. Pulliam—made double champion having scored top points in a previous show.

"Grand Champion Show" Charlie Brown of Willow Walk, a huge male, was named champion and a Persian male and one of three Grand Champions in the Greater St. Louis area, conceded first place in the show to a gray female—"Grand Champion" and "Grand Champion's Raider," a two-year-old, odd-eyed white Persian bred at the local cattery and now owned by a Chicago resident.

The annual show has recently won "best cat" in all shows throughout the mid-western region, Mrs. Taylor said.

"Rare blue smoke Persian, " Champion Beauty of Willow Walk," owned by Mrs. Pulliam, also made double champion and scored "Best of Color in Opposite Sex" in the local show.

Mrs. Taylor, who assists Mrs. Taylor at the cattery, also received a special prize for the show's most outstanding decorated cage, created in a circus theme.

Enter Road, Collides

Leaving the entrance of the Bellmead Village shopping center, a driver of a car, Robert J. Ripper, 3109 Myrtle Avenue, collided with a car driven north on Nameoki road by Thelma E. Bradley, 2568 Washington avenue, in the Bradley Woods. The Bradley auto came to a halt on the divider strip. Ripper was charged with a right-of-way violation.

Page Favors Increase
In Transportation Aid

Ray Page, Illinois superintendent of public instruction, said this week that a new transportation formula for Illinois schools will save local school

districts more than \$7 million a year if House Bill 1194 is approved by the General Assembly.

The formula would increase state aid for transportation of pupils to and from school from \$10 million to \$17 million.

Enacted into law in 1967, the present state aid reimbursement to qualifying districts is made on the basis of 80% of the cost of transporting eligible pupils or more from the attendance center by the applicable sparsity factor, whichever is smaller.

The formula would increase state aid for transportation of pupils to and from school from \$10 million to \$17 million.

Under the proposed formula, the amount of reimbursement is computed by subtracting a qualifying amount from the cost to transport eligible pupils, unit districts.

Eligible pupils are those who reside one and one-half miles or more from the attendance center by the formula or 80% of the cost to transport eligible pupils, whichever is smaller.

The maximum district claim would be limited to computation of the basis of one and one-half miles or more from the attendance center by the formula or 80% of the cost to transport eligible pupils, whichever is smaller.

Youth Focus

YOUTH FORUM at the YMCA attended by 75 members of Student Councils from area high schools and some adults, conducted Monday under the auspices of the Quad-Cities Social Concerns Council.

Youth-Adult Relations Topic of Council Forum

Promotion of better relations among students and adults in the area keynoted a Youth Forum held Monday at the YMCA under the sponsorship of the Quad-Cities Social Concerns Council.

Seventy-five members of Student Councils from Venice, Madison and Granite City high schools, who convened here for the first time, plus adults, heard three principal speakers and entered into discussion groups on drug sex, the black and white race and other pertinent authority.

The students had an opportunity to attend each discussion session throughout the day. Topics for the discussion were chosen by a steering committee composed of representatives of the Student Councils.

Keynote speakers included John Buckner, principal of Summer high school, St. Louis; Robert Gifford, a student at Forest Park Community College and a former participant in VISTA (Volunteer in Service of America); and Wilbur Trimpf, Madison county superintendent.

Parents and teachers were invited to ask questions and seek answers.

Trimpf, in a closing address, observed that parents and youth are a result of action by parents, teachers and adult leaders of the community. He recommended that parents spend more time with their children on a regular basis and discuss the real issues of life with them.

Resource Personnel

Resource personnel on hand for the forum included Dr. Felicia King, Granite City physician; Mrs. Bea Pyle, school nurse; John Flamme, assistant to the SIU-SW chamber of commerce; Howard of Venice, employee at Granite City Steel Co.; Demos Nicholas, assistant Madison county deputy sheriff; and Harold Bruns, executive director of the American Family Service in East St. Louis.

Alex Duccini of the Social Concerns Council presided. He led the group in a eulogy to Vernon S. Sharp, late executive director of the YMCA, to whom the conference was dedicated.

Must Decide Changes

But he stressed that the job done by today's adults leaves much to be desired, and that the youth of today must decide on changes they wish to make for society. Whether they make changes in a positive or con-

structive direction is the major decision with which they must cope, he said.

At the close of the luncheon at the Niedringhaus United Methodist Church, Galadear described his assignment during the riots in Detroit and his work on an investigation of the riot.

He called upon youth to continue to ask questions and seek answers.

GCHS Latin Club Wins Awards

Granite City high school's Latin Club won a first place for its banner and received a gold and white statue of Apollo for the standard which stated, "Latin-The Best Language South in the Nation," convention of the Junior Classical League South at Eisenhower high school, Decatur, Ill., it was announced Wednesday.

The club also won the "College Bow" in competition with a team composed of Gerald Griffith, Steven Doroghazi and Brian Waterman. Clifford Parrett received the first place award in the fashion show with his costume of a Roman soldier.

Miss Mildred Ifrig, local Latin teacher, accompanied four Latin Club members from Granite City to competition. She was presented with a candleholder in appreciation for serving as chairman of the Illinois Junior Classical League South, a post which she will retire at the close of year.

Hanging back was president of the Southern Illinois organization last year, Marsha Love, a senior of the school, headed the group with the aid of the Latin class presidents, Vickie Harmon, Linda Johnson and Paul Dorchak. About 1000 students from 30 schools attended.

Two Bands to Play At Teen Town Dance

The YMCA Teen Town will present two bands for Saturday night's regular dance, according to Chuck Hesse, youth director.

They are "The Ringers," each of which will play for 1½ hours. It will be the first appearance at a local "Y" dance for both groups.

"Rising Sons" will make a repeat performance at the dance on April 12.

Nameoki Twp. Electors Ok \$210,910 Levy—Up \$20,822

The 1969-70 budget and appropriation of \$210,910 and a tax levy for the same amount was approved unanimously by close to 70 Nameoki township electors at the annual town meeting Tuesday night. The new budget levy shows an increase of \$20,822 over last year's \$190,088.

Changes made at the March 25 public hearing of the tentative budget which added extraordinary legal fees of \$250 to finance township court actions and upped the attorney regular fees from \$210 to \$300 annually, increased the total appropriation ordinance to \$210,910. The total budget passed in early March showed an original figure of \$192,550.

Additions to the tentative figures, adopted by electors at Tuesday's meeting, raised the total to \$210,910.

Increases in the new budget and tax levy, all appearing under the town fund appropriation, included \$7000 for engineering services; \$3500 for purchase adjacent property to

the town hall building; \$1500 to offset per diem incurred by township employees in traveling to meetings; \$500 to sell the property at the \$5500 figure had only recently been made to township officials. A metal building similar to the one now used in the public prints recently was estimated to cost more than \$4000, the supervisor pointed out.

Township Atty. Nick Vialeff said the only proposal which would be taxable if the township continues to rent the building. Approval was given unanimously to purchase the lot and building at the price quoted by the vendor and continue to rent to the state.

A point raised by an elector who suggested securing a separate loan to finance the transaction, rather than add the amount to the current loan on the town hall building property, was not included in the motion to buy.

Briggs explained that expenses involved in reworking the possible future engineering studies on storm water drainage or sewer systems will be covered by the \$7000 engineering services item added to the budget. He noted that an engineering study conducted earlier in the township was financed with federal funds.

The elector who asked that all mobile homes be restricted to trailer courts caused the first ripple of dissension in the meeting. Several persons commented on the rights of individual property owners before the party.

Madison Joins In Neighborhood Planning Study

A planning contract for professional and technical services for a federal neighborhood development program for Madison and Venice was signed at a meeting of the Madison City Council Tuesday night with the Leo A. Daly Planning Associates of St. Louis.

The consultants will receive \$25,000 for the work, including \$14,360 from Madison and \$11,440 from Venice, on a pro-rated basis.

The firm is to prepare and furnish neighborhood plans, reports and maps for a neighborhood development program and will handle an application for federal funds until Title I of the U.S. Neighborhood Renewal Act.

New Construction

Under the program, deteriorated and sub-standard housing in the two cities will be replaced or razed with federal funds, if such funds are available at the time.

New homes may be erected a few at a time, if so desired, using private or municipal funds.

The original component will be given the first opportunity to purchase the new property.

The Daly firm has 150 days to complete the project, and the two cities will make payments every 30 days, with the final 10% to be paid when work is completed. The Venice city council accepted its contract with the firm on March 21.

No Let Tucks

During the meeting, the council approved an ordinance authorizing a let tuck by north-bound traffic on McCambridge avenue onto Second street and onto Edwardsville road.

The city will install the signs, having received the approval of the Illinois highway division.

Third Ward Alderman Ray Koziel, noting difficulties the council has had with the highway division in obtaining adequate traffic safety measures along the artery, remarked that he will not be satisfied until electric traffic signals are placed at the intersections.

"But it is a matter of the right direction," he added, "and right now I don't want to argue with the state."

Polling places for the April 11 municipal election were set at the fire building for Ward One, the public library for Ward Two, the Madison Memorial auditorium for Ward Four and the West Madison Memorial center for Ward Five. A mayor, city clerk, treasurer and five aldermen are to be elected.

Speeding Ambulances

Mayor Stephen Maeras reported that complaints are being received of ambulances speeding along Main Street and Police Chief Emmett Parisi was instructed by the council to contact the ambulance services, asking them to obey traffic laws.

The council was officially informed by Robert Lowenstein, general manager of the new Caine Steel Co. plant, that the firm has accepted production of the divided factory from the Cundiff Co., contractors, as of March 17.

Mayor Maeras reported that thefts of equipment used in repair work of an expansion joint on the city's Chain of Rocks bridge necessitated the employment of two guards there while the work is under way.

Special Easter Services

At Gospel Mission

Special Easter services at The Gospel Mission on East 20th Street will include a guest speaker, Rev. Edwin Tucker of East St. Louis, and a Communion Service at 7:30 this evening.

There will be a special service at 10:30 a.m. Easter Sunday with Everett Clegg of Glen Carbon as speaker. Dr. George A. Rosenthal will deliver the sermon at 7:30 p.m. Sunday.

The only point in the annual meeting that required a standing vote came about when Sheriff Martin, a township resident, asked that future off-budget allocations of annual township appropriations budget be limited to the Collinville Herald, as opposed to alternating between the Herald and Press-Record. Martin Luther King Memorial Set Friday

Thomas A. Johnson, New York Times correspondent, will be featured speaker at Martin Luther King Memorial Day activities at Southern Illinois University's Southern campus, Friday at 2:30 p.m. in the University Center.

Johnson, a member of the newspaper's staff since 1966, has devoted most of his time covering civil rights activities nationwide. He was widely acclaimed for his series of articles on the life of the black soldier in Vietnam in 1968.

Activities will include movies and taped speeches of the late civil rights leader, music, and a fund drive to establish a memorial at the university campus.

The memorial day is the third event at SIU-SW giving tribute to Dr. King. Earlier this year two scholarships in his name were established and a benefit performance for the Coretta Scott King educational fund was done by the Katherine Dunham Troupe of the University.

Outsiders Adults

He won the largest trophy of the day over a group of men at Scott Air Force Base more than two years ago, when he was

shooting in the sub junior division.

Since his birthday last September, he is now participating in the junior division.

He uses a Remington automatic model 1100 in both the 12 and 20 gauge divisions and has an outstanding average of 95 out of 100.

His coach is his father, who at one time was the runnerup champion of Missouri. Pryor is the owner of the Modern Painting Studio in Granite City.

Father-Son Combination

Kevin and his father have a long list of shooting competitions in which both have participated.

A year ago, Kevin won the 20 gauge sub junior championship and the 12 gauge junior championship at the St. Louis trap club in Bridgeport where the film was made. He has captured a sub junior championship and runner-up honors in the men's division at the St. Louis Trap and Skeet club, Pacific, Mo.

As far back as July 1967, he took first place in the 12 gauge trap shooting competition at the fifth annual St. Louis Open invitational skeet tournament.

On a Saturday he finished third in 20 gauge for the sub junior division. He went back the next day to do equally well in the 12 gauge category for the B Class. Trophies were awarded for both; at that time he had been shooting skeet for two years and already loaded all his own shells.

First in Pairs Events

Last summer, he and his father attended the United Sportsman Club meet in Jefferson City, Mo. Kevin won class E in the men's division. His father won in Class C and they entered the two-man event, placing first.

They then traveled to Cleveland three weeks later. Young Pryor won the subjunior championship in the 12 gauge shotgun division and also placed first in the junior championship 12 gauge division.

Kevin also entered and won distinction in the subjunior championship held at the Lewis and Clark Open at West Alton, Mo., and the subjunior championships in the Lewis Open, conducted at Pacific, Mo.

Entered World Championships

The Pryors journeyed to Bryce, Kan., for the U.S. National Championship competition, where he tied for fourth

in the world champion ship sub junior division.

While at Mayfield, Ky., Kevin shot in the men's division and won a trophy in Class E, winning competition shooting at Jefferson City, Mo. He and his father entered the two-man team and placed first.

At the State Championship held at Perryville, near Chicago, Kevin was state champion late last summer.

His first silver serving piece was won last September in Decatur, where he captained the junior division. He also won against the young shooter.

At Terre Haute, Ind., last November, he was runnerup in the 12 gauge men's class and the 12 gauge championship. He won the trophy last December in the junior championship held at Scott Air Force Base, where he is a member of the Rod and Gun club.

Five-Turkey Day

Kevin's father recalls an exciting shooting match when the rain was pouring and all odds were against his son, but he won against the young shooter.

WANTS WALKS REPLACED

To the Editor:
Thought I would bring to your attention what the taxpayers on Ralph street have to put up with.

We have had mud in front of our doors and driveways all winter, and when 2nd Street and Washington were cleared off to traffic, I was up to the alleys with the snow and slush in order to get out. The sewers have been in since early January, but still sidewalks, just mud when it rains.

We noticed that when sewers were put in at the 2900 block of Washington avenue about six weeks ago, the sidewalks also were put in. Why are they so lucky? Our tax money is good.

All the home owners on Ralph street are in agreement with me, and will stand behind demands for new sidewalks to be installed. We were told that the sewers and the sand and silt had to set for two months before the sidewalks could be laid; well, it has been over 4 months. I hope the city will do something. It didn't come and wash away the sand and silt last December.

If there is no action, we may write to the mayor and the sidewalk committee and our friends which were cut down are restored.

Thank you for having a column such as The Forum where a taxpayer can express his feelings.

AFFILIATIONS CLAIMED ARE NOT ALWAYS ACTIVE

To the Editor:
In reading the biographical sketches of various candidates for public offices in the Press Record March 27, it seemed to be a matter of pride to these individuals to be able to list their various affiliations and memberships as possible—the longer the list, the more to their apparent credit and qualifications for office.

I did not escape my notice that at least two claimed membership in the same church which I attend. Neither of these prospective candidates has been seen by me in church or at parishes several times in the last year, at a funeral and the other at a baby Christening—and I attend every Sunday except vacation periods.

One of the men taken for granted in our church is to support it by attendance and by financial contributions according to the way God has prospered us. As to the latter, regarding these people I cannot testify, and am sure they are members in our church. However, it is well-known in all churches that if a member does not attend, he rarely contributes.

I believe it would be well if each candidate for office would assume his own responsibilities in listing his qualifications and memberships, and if he does not belong to these organizations to actively support them and not to use them to garner votes.

To the candidates—"if the shoe fits, wear it."

OLD HOUSING SHOULD BE REPAIRED OR TORN DOWN

To the Editor:
"Fifty Years Ago" is the heading of one your columns in the Press Record. That is how long ago I think most of the houses and apartments in Venerable and Madison were built.

I think someone should be doing something about conditions. Some of them have floors, ceilings and outside porches that could cave in at any moment.

To my surprise, all of them which I have personally visited, have people living in them. The tenants sometimes pay from \$70 to \$90 a month for these rat traps.

One year ago, I was seated in my mother-in-law's living room when the bedroom ceiling caved in. My sister-in-law and her four-day-old baby were on the bed. Fortunately, the baby was not harmed.

In my opinion, any houses or apartments not fit to live in should be torn down. If any repairs are needed, the owner should be forced to make them.

In the event this is not done, the city should be fined accordingly.

If there is nothing done in the future by our local politicians, anyone not interested in public health in our community should get my vote in the next election.

MADISON WOMAN

LIFE OF CRASH VICTIM SAVED AT GC HOSPITAL

To the Editor:

Reference is made to letters March 10, "Additional Hospitals Needed In This Area," and "Doctors Harmful to Patients."

After reading them I also feel I have an obligation to relate an experience which I know saved my life at St. Elizabeth Hospital in Granite City.

On Dec. 2, 1968, I was struck

by a tractor-trailer on Interstate 270 and Route 203 in Mitchell, resulting in serious injuries.

I was given first-aid at the scene by Granite City police, who asked some questions. I was in a bad shape, my next of kin, etc. This information was radioed to the radio dispatcher, who informed me at 1:45 p.m.

We were transported to the hospital by ambulance. I heard the ambulance attendant talking to the hospital via radio. At this time, they advised me to go to St. Louis to get my blood, which arrived at the hospital a considerable amount of blood.

My blood type in whole blood was not available. However, the hospital made arrangements for me to go to St. Louis to get my blood, which arrived at the hospital a very short time behind me.

My doctor was limited on what he could do for me because of the extent of my injuries, making it necessary to call in specialists.

However, several of the doctors at the hospital were very kind and willing to help me. They could until the specialist arrived, which also was a short time.

After four hours in the operating room and a job well done by the operating room staff, I was then placed in the Intensive Care unit, where for 15 days it was touch and go. I was in and out of consciousness very clearly that whenever I woke up or needed anything, there was a nurse standing over me.

I was transferred to the section of the hospital called the Third Floor East, where I received excellent care over a seven-week period.

I have since been transferred to a hospital in Louisville, where I am now and care is about the worst I have ever seen.

Later, I was informed by my wife that Ted Ellermer, a supervisor at the Sixth Ward, and a veteran, Fourth Ward Alderman R. E. Robertson, scored impressive victories, as did incumbent city and township officers, but most aldermanic decisions were by a narrow margin. Other race, besides Schuler will be Thomas Boker of the Seventh Ward and Everett Moreton of the First Ward.

Spirited competition and big turnout saw Chouteau and Venice township incumbents re-elected.

In Nameoki township, the entire Truth and Action party swept to victory over a rival slate composed mostly of incumbents. This brings in a new tax collector and four-fifths of a new town board; the fifth Nameoki board member, Supervisor Briggs will need to be replaced if he wins election as state senator later this month.

Based on the above, I can only say that without the grace of God, and the wonderful cooperation of the St. Elizabeth Hospital staff and doctors, I would not be here today, for my chance of living when I was sent to the Intensive Care section was very slim.

We have moved more hospitals.

However, I am very happy we have what we have, for I had to be transported farther than Granite City the day of my accident. I would not be here to write this letter.

RECALLS GOOD, BAD SERVICE TO PATIENTS

To the Editor:
I am happy that once again someone asked the question, "Why not another hospital?"

I have been a hospital patient three times in ten months. Two of those times were for major surgery.

My treatment I would consider fair. The day service was good and the evenings fair, though midnight to morning shift, especially bad.

The sides were mostly kind. Several of the registered nurses were considerate.

My room and I would like to stay until we just have to leave for a shot or pain pill. I was on 1st floor east and 2nd floor east.

Some of the nurses seemed to be called on an aside to help a patient, the midnight to morning shift, especially.

Long-range plans, programs and forecasts must be based upon three factors—research, forecasts and carefully formulated assumptions.

The development of basic assumptions relating to Granite City's future growth, its long-range development plan, and why it is necessary to assume anything.

Long-range plans, programs and forecasts must be based upon three factors—research, forecasts and carefully formulated assumptions.

Such assumptions provide the basis for interpretation and participation in metropolitan area.

Granite City's population will reach a total of about 51,300 by 1985. However, this total could be increased appreciably, depending upon the rate at

which annexation takes place.

Granite City will continue to have a relatively young population, with a large segment of that population in the 18-34 age group.

Continued improvement and development of the park district and school district will provide Granite City with facilities and recreational areas of an expanding population.

Programs for upgrading and conserving housing will be undertaken. An accelerated program for removal and replacement of structures and maximum holding capacities, since reuse of land will be included, with strict and efficient enforcement of related housing codes.

Local business and citizens will make a concerted effort to revitalize the Granite City Central Business District with competent technical assistance.

Land use controls will be

Do they know that there are special education classes for the exceptional children?

Can they be rehabilitated if offered the proper training?

Can they be dedicated teachers in special education?

Some classrooms are working successfully and a successfully trained teacher is available.

RIDC Study Calls for New Airport, Rail, Truck Barge Terminal

The site for the next metropolitan airport planned for this area should be located that it can ultimately serve as the center for a unique transportation complex. It should be near the area's rail, truck, barge and pipeline transportation facilities to the new airport, the Regional Industrial Development Corporation (RIDC) proposed today.

Calling for the development of an international airport which could serve as the nucleus for what it terms an "intermodal terminal complex," a just-released RIDC report emphasizes that such a completely integrated transportation complex would be the first of its kind in the nation and could "provide the impetus to full scale industrial growth immediately surrounding it."

Coupled with our central geographical location, we could thus fully exploit our position in the center of the U. S. population to the new report emphasizes.

Expanded Freight Facilities

RIDC envisions that the first step in this intermodal complex would be the development of a new metropolitan airport.

It also notes that we have expanded air-freight

facilities in addition to being a passenger and general aviation port. Fifteen RIDC affiliated organizations have already endorsed this expanded air-freight airport concept.

"This airport, if properly located," said Dr. Delvin Morris, RIDC chairman of the board and president of Southern Illinois University, "would then serve as the nucleus to knit together all the region's major transportation modes into a single integrated transportation center. Such a complex would include rail, truck, air, inland port, industrial, warehousing and commercial activity."

The RIDC study places heavy emphasis on the need for the reinforcement of air freight as an important transportation mode, thus demonstrating its concern that this metropolitan area should not be left behind in area transportation needs which are rapidly planning for the future. It points out that in the Dallas-Fort Worth area, an 18-acre, \$350,000 regional airport is under construction and a new \$200,000 international airport in Kansas City is almost complete.

The RIDC report notes that projections call for passenger traffic to increase three or four times while air

freight accounts for less than maximum usage of the region's five times.

Using projections of the Federal Aviation Authority which call for a 137% increase in cargo pounds being shipped by van dock space, warehouses,

planned freight handling im-

provements at Lambert Field

are inadequate to meet the de-

mands. To meet these needs of

the region, the report stresses

Threefold Benefit

In calling for the rapid devel-

opment of a new airport in the

metropolitan area which would

have expanded air-freight facil-

ties, the report notes immediate

threefold benefit:

1-To stimulate area employ-

ment. The report notes that in

Kansas City, the airlines had 1966

employed 1,000 persons and in

other 200 were employed by

related businesses. This com-

bined payroll added almost

\$100,000,000 to the local econo-

my which easily doubled

in the next decade.

2-To pave the way for

development of an intermodal

complex which would allow

maximum usage of the region's already existing truck, barge, and railroad facilities.

The report concludes that "a

combination of public and pri-

ate investment in our proper facil-

ties will serve an interna-

tional market if we have the proper facilities," Dr. Morris said.
